

PODCAST #4 – SHOW NOTES

WHY SHOULD I CO-WRITE?

Hey Creatives!

Thank you for listening to **Podcast #4** of the **Coffee With Camilla** podcast where we will discuss the music industry. I'm your host Camilla Kleindienst of Banner Music in Nashville, TN. Songwriters, artists, and others ask to take me out to coffee to "pick my brain" or ask my opinion about their music career. Today we will be discussing co-writing. I have my coffee mug and I'm ready to go!

Why Should I Co-Write?

These are the pros:

- Other ideas on the table at the write
- Learn something new from someone else
- Someone to bounce ideas off of
- Other "camp" learning about you
- Another songplugger pitches your songs
- Share expenses on demos & keep costs low
- Overall speed of things

These are the cons:

- Your initial idea could get lost or watered down
- You will have to share ownership
- You lose control

My advice is to go find co-writers and give it a try!
